DETAILED ACTION

This office action is in response to Applicant's amendment submitted June 6, 2010. Claims 71-134 are pending and are examined on the merits herein.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary Tanigawa on July 13, 2010. The application has been amended as follows:

Cancel claims 110-131 and 134.

Claim 71: In the first line of claim 71, after "derivative" and before the comma, insert "having an iduronic acid content of 20-60%, a mean molecular weight from approximately 2,000 to approximately 45,000 and a sulfation degree of at least 4.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement with respect to groups I-II as set forth in the Office action mailed on July 16, 2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The following is an examiner's statement of reasons for allowance: Applicant's arguments and the declaration of Pasqua Oreste submitted June 7, 2010 are persuasive to overcome the rejection of claims 90-93, 108, and 109 under 35 U.S.C. 103(a) as being unpatentable over Leali in view of Casu and Guo; and of claims 132-133 further in view of Doshi. The cited references do not teach a product having a degree of sulfation greater than 4.

Claim 90 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 71-89, directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR

1.104. Claims 110-131 and 134, directed to a non-elected product and process for production of the non-elected product, do not require all the limitations of an allowable product claim, and have NOT been rejoined.

Claims 71-109 and 132-133 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAYLA BLAND whose telephone number is (571)272-9572. The examiner can normally be reached on Monday - Friday, 7:00 - 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anna Jiang can be reached on (571) 272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
